

California Home Visiting Program Annual Federal Report Summary

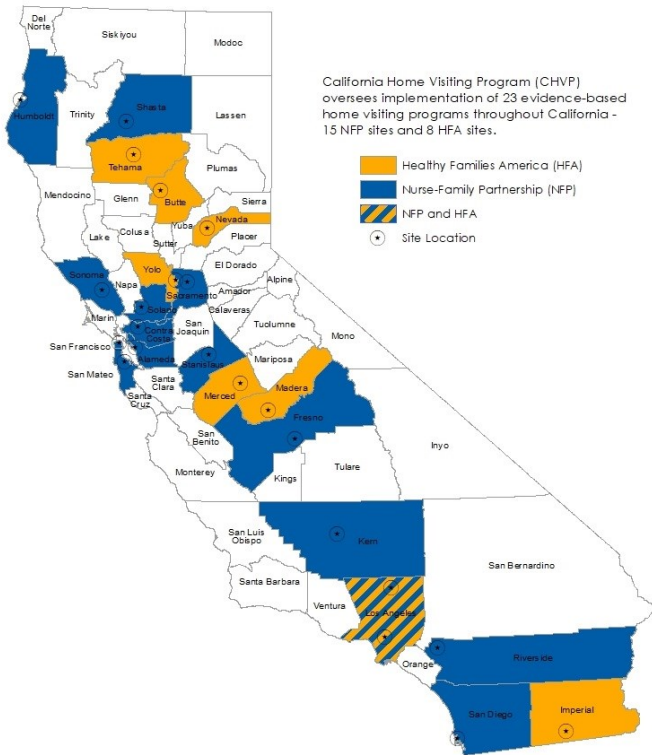

May 2020

Federal Fiscal Year 2018-2019 (10/1/18—9/30/19)

Early childhood home visiting pairs nurses or paraprofessionals with pregnant and newly parenting women. Trained home visitors provide support and education to families to promote positive parenting and improve child health and development. Home visiting services have been shown to improve maternal and child outcomes when implemented by evidence-based programs during the first three years of life.^{1,2,3} Participants in California Home Visiting Program (CHVP) are assessed on a variety of health behaviors and indicators throughout their program participation. Their responses are compiled into benchmark performance measures that are required for annual federal reporting to the Maternal, Infant and Early Childhood Home Visiting (MIECHV) program. This report summarizes key data from the 2018-19 MIECHV annual report.⁴

In Federal Fiscal Year 2018-19 CHVP:

- Served 2,979 Women
- Served 2,318 Children
- Completed 29,626 Home Visits

By The Numbers

99%	of children had no investigated reports of maltreatment
94%	of children were screened for developmental delays
82%	of mothers were screened for depression
77%	of mothers were screened for intimate partner violence
65%	of mothers received a postpartum check up
56%	of mothers breastfed their infants at 6 months of age
51%	of mothers were enrolled in or completed high school
57%	of families were assessed on parent-child interaction

This publication was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$20,813,184 with (0) percentage financed with non governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS or the U.S. Government. All CHVP participants who are served by a home visitor for whom at least 25% of his/her personnel costs are paid with Maternal, Infant and Early Childhood Home Visiting funding are reported to HRSA.
