California In-Hospital Breastfeeding as Indicated on the Newborn Screening Test Form Statewide, County and Hospital of Occurrence by Race/Ethnicity: 2018

Data Source: California Department of Public Health, Center for Family Health, Genetic Disease Screening Program, Newborn Screening Data, 2018

Prepared by: California Department of Public Health, Center for Family Health, Maternal, Child and Adolescent Health Program

All nonmilitary hospitals providing maternity services are required to complete the Newborn Screening Test Form.

Note 1: Infant feeding data presented in this report include all feedings since birth to time of specimen collection, usually 24 to 48 hours since birth.

Upon completing the form, staff must select from the following three categories to describe 'all feeding since birth':

(1) Only Human Milk; (2) Only Formula; (3) Human Milk & Formula; (4) NPO.

The numerator for "Exclusive Breastfeeding" includes records marked 'Only Human Milk'.

The numerator for "Any Breastfeeding" includes records marked 'Only Human Milk' or 'Human Milk & Formula'.

The denominator excludes cases with unknown method of feeding, cases marked NPO indicating "nothing by mouth" and those receiving TPN at time of specimen collection.

Note 2: Excludes data for infants that were in an Neonatal Intensive Care Unit (NICU) nursery at the time of specimen collection.

Note 3: Infant race/ethnicity is based upon mother and father race/ethnicity as reported on the birth certificate and recorded on the Newborn Screening Test Form.

Data for individual race groups exclude persons of Hispanic ethnicity.

Data for cases with unknown race/ethnicity are not shown, but are included in the totals.

Note 4: Excludes cases that were not collected by facilities listed as 'Kaiser' and/or 'Regular' maternity hospitals in the newborn screening database.

Note 5: Data for counties shown in this table include information for all births occurring in a 'Regular' or 'Kaiser' facility providing maternity services in that county.

Counties and facilities with fewer than 50 births with known type of feeding are not shown.
