Dashboard Instructions

This data dashboard consists of several elements, some of which are interactive. Below are general instructions on how to use the dashboard.

Tooltips

Move the mouse pointer so that it hovers over one of the dashboard objects mentioned below. A tooltip, or pop-up window, will appear. The tooltip contains additional details for the data point, such as the year, race/ethnicity, special care center, condition, number, rate, or percent. See "About the Data" for more information.

Trend Chart

Move the mouse pointer so that it hovers over a trend line/subcategory in the trend chart. On each axis point of the trend line, the tooltip provides additional details the indicators and categories/subcategories.

Bar Charts

Move the mouse pointer so that it hovers over a bar/subcategory in the bar chart. The tooltip provides additional details about the indicators and categories/subcategories.

Tree Map Chart

Move the mouse pointer so that it hovers over a rectangle/subcategory in the tree map chart. The tooltip provides additional details the indicators and categories/subcategories.

Bubble Chart

Move the mouse pointer so that it hovers over the circle/subcategory in the bubble chart. The tooltip provides additional details about the indicators and categories/subcategories.

Downloadable Data

The data that support each chart can be downloaded as an Excel spreadsheet from the "NBS Website Datasets" link. Each of the 5 datasets has a separate sheet in the spreadsheet.
